Principal: Mr Jon Francies

Dear Parent/Carer

### **Food Technology Contributions**

Having listened to feedback throughout the year we have made changes to the way that Food Technology operates. We are aiming to combine the practical and nutritional content of the curriculum so that students are preparing, tasting, analysing and discussing healthy foods in every lesson. This is an exciting development for the students and removes the need for you to have to buy their ingredients, and by purchasing them centrally we are able to gain a discount.

To enable us to do this we will need to ask for a voluntary parental contribution of £15 per year payable through the online payment system. We calculate this to be a significant saving to you from the current food purchasing costs.

As I am sure you will appreciate this will save you time at home and will prevent you from purchasing ingredients that may otherwise go to waste. It will also help your son /daughter with their Food Technology (an important part of their curriculum) as it will ensure they complete all their practical learning in Food technology and save you, as parents, the time and worry of checking online.

Yours faithfully

Mr P Ineson  
Director of Learning
